

Commercial Energy Audit Program

The Commercial Energy Audit Program helps customers identify ways to conserve energy and reduce energy costs.

The Commercial Energy Audit Program Provides:

- Assistance identifying energy efficiency projects, their estimated cost, estimated energy savings, and estimated payback periods
- A review of the facility's operations and systems with third party recommendations on how to achieve energy efficiency goals
- Energy benchmarking using ENERGY STAR® Portfolio Manager
- Technical information about the newest and most energy-efficient technologies
- Assistance identifying and estimating potential incentives from Oncor's energy efficiency programs

About the Energy Audit

Energy audits are conducted by experienced energy professionals. After the audit, you will receive a user-friendly report with the details you need to implement the recommended energy efficiency projects. Our expert auditors will help you identify incentives available through Oncor's suite of programs to help reduce the cost of implementing projects.

Ready to Make Energy Efficiency Improvements?

Oncor offers many incentives to help reduce the cost of energy efficiency projects. Whether you are a nonprofit in need of hands-on support or a seasoned facility manager, we have the program to meet your needs. The Commercial Energy Audit Program will provide guidance with selecting the best program based on the results of your audit.

Eligibility Requirements

- Commercial customers served by an Oncor meter are eligible to apply.
- Non-profit, government, public education, and small commercial facilities in Oncor's service territory can participate at no cost.
- Other interested customers can participate at no cost or a reduced cost based on the facility type and size. Please contact the Program Implementer at (713) 982-5547 or ceap@nexant.com for pricing information.
- Applications for audits will be reviewed based on your facility's energy consumption and the potential for energy efficiency projects.

We'll Make it Easy for You.

Next Steps

1. Download and complete an application from www.takealoadoftexas.com.
2. Send the completed application and the past 12 months of energy bills to ceap@nexant.com.
3. Upon approval of the application, a participating Service Provider will contact you to schedule an audit.
4. Following the audit, you will receive a detailed audit report.
5. The auditor will review the report and discuss available incentives from Oncor's incentive-based programs.

Get Started Today!

To receive an energy audit, or to become a Service Provider, visit www.takealoadoftexas.com or contact the Program Implementer at: (713) 982-5547 or via e-mail: ceap@nexant.com.

The Commercial Energy Audit Program is provided by Oncor Electric Delivery Company LLC as part of the company's commitment to reduce energy consumption and demand. Nexant Inc. implements Oncor's Commercial Energy Audit Program as an independent contractor. For more information visit www.takealoadoftexas.com.
